1. MESSAGE FROM THE CEO

Dear Partners,

Your attention is drawn to the Connections Audited Financial **Results Report of Connections**

Consult SA (hereinafter "Connections" or the "Issuer") and those compiled and unaudited for the group of companies Connections Consult SA controlled by (hereinafter "Connections Group" or the "Group"), relating to 2022.

We are now concluding the evaluation of the 2022 activity. We have completed the annual audit and will submit to the vote of the General Meeting of Shareholders both the financial statements for 2022 and the Income and Expenditure Budget for 2023. Last year, 2022, was on the same note of uncertainty and unpredictability in the world economy. The war in Ukraine, the energy crisis and rising global inflation have made the last 12 months a difficult journey for both companies and individuals almost anywhere in the world.

For Connections, 2022 was the first full year of operation since the IPO. So, it was a timeframe relevant enough to showcase the company's potential and validate the promises on the basis of which we secured funding from our investors in the July 2021 private placement. It was a year of the construction to which we have committed and, at the same time, a year of defining our medium-term strategy, this time taking into account the variables of the new economic and geopolitical context in which we have entered.

The major events in the life of the company in 2022 were:

- 1. Set-up of the advisory board - composed of Diana Olar, Bogdan Lazaroae and Michael Lithgow.
- 2. Employee Stock Option Program - ESOP - included on the agenda of the April 2023 AGM.
- 3. Opening of US and UK subsidiaries.
- Signing contracts for the implementation of integrated digital solutions for the Superior Council of Magistracy (CSMapp), the Ministry of Justice (ECRIS), the Official Gazette and the National Health Insurance House.
- Strengthening the governance system by appointing a co-CEO Radu Marcu and a Board of Directors composed of Bogdan Florea - president, Oana Beldie and Corneliu Stanciu - members.
- 6. Continued investment in highly qualified staff.
- 7. Acquisition of 25% of the shares of 10plus FUTURE EDUCATION srl - edtech company.
- 10:1 stock split 8.

In the reporting period, the Group recorded a 29% increase in revenue compared to 2021 in the context of increased activity in custom software development. Gross profit increased by 48% compared to 2021, on the back of increased revenue in the software division, which now accounts for 36% of the Group's total revenue, compared to 22% in 2021. All group verticals recorded jumps between 6-7% (BPO and ITO) and 32% and 106% (RPA, and software development respectively).

At the same time, the Group has exceeded the financial estimates for 2022 mentioned in the offer document of the private placement and in the one published at the time of the admission to trading in September 2021, both in terms of revenues (18% increase compared to estimates) and gross profit (approximately 20% increase compared to estimates). Compared to the revenue and expense budget voted at the General Shareholders' Meeting in 2022, we record slightly negative single-digit variations (4% in revenue and 9% in gross profit), due to the postponement of the initiation of some technology projects to 2023. The hiring plan, on the other hand, was respected, which had an impact on gross profit, relative to the approved revenue and expenditure budget. On the other hand, given the labour market context, the projects that will start in 2023 find us with engineering teams already selected and accommodated with the internal processes of the group companies. Given the aggressive revenue growth in 2022 compared to 2021, of around 30%, in parallel with the need to reshape internal flows, we consider the company's path to be a successful one that offers prospects for sustainable development in the coming years. As regards the acquisition of new companies, we have decided, given the uncertain context and valuations still too high to justify new investments, to focus on building internal teams and organically increasing the Group's technical capabilities, while remaining attentive to developments in the acquisition and merger market.

The company's strategy for the next 3 years looks at the business as an ecosystem with 5 stakeholders: investors, employees, the company, the community and the environment. We will announce in early June 2023 the major objectives that will shape this strategy. The document will be public, will contain deadlines and ways to measure these objectives and will represent the Group's boardroom. This step represents a higher level of approach to the Group's activities, aiming at a continuous maximization of its assets, through a sustainable perspective over time and resilient to external shocks. Broadly speaking, we will continue in the coming years to develop the Group firms' technology integrator capabilities, invest in products with added value and impact in the short to medium term, increase revenue from external markets and broaden the skills base we can leverage (we plan to integrate cybersecurity capabilities as well as hardware and software infrastructure).

In closing, we repeat last year's message, which, even at the beginning of 2023, is still relevant: "We are confident that we will be better at managing our relationship with investors, we understand their importance and essential role in our development and we are working on improved governance of our relationship with the capital market. We strongly believe in communicating with substance - when we have relevant and consistent topics to expose publicly - and we will never try to market half news just to speculate on a momentary share price increase. We're in the capital markets for the long haul and we want to play honestly and transparently, without "stealing a march" unnecessarily. That's why we will not publicly expose information - unaudited or unvalidated by clients/auditors."

This introductory message does not provide the necessary digital space to nominate all the colleagues in the Connections team who work every day with energy, passion and commitment and to whom we both - Bogdan and Radu, thank you for an exceptional year spent together! Thanks to our investors who have shown patience, good intuition and moral support by their open attitude and honest approach towards the company!

Bogdan Liviu Florea & Radu Marcu

CONNECTIONS

CONNECTIONS

2. About Connections - a brief history

Connections is a group of technology companies specializing in digital business transformation and includes several companies: Connections Consult SA, Connections Technologies SRL and Outsourcing Support Services SRL, Brusch Services SRL (from October 2021) as well as subsidiaries in Bulgaria and Serbia.

Even though the 6 companies mentioned above, which form the Connections Group, have been established over time under the control of the same majority shareholder (with the exception of Brusch Services Srl), the current form of the Connections Group dates from 01.10.2021, when Connections Consult SA acquired 100% of Brusch Services Srl. The companies which, at the date of this report, are part of the Connections Group have also in the past acted on the basis of a common strategy and for this reason we consider it relevant for this report to present the activities, plans and strategy both from the perspective of the Issuer (as required by law), Connections Consult S.A., and from the perspective of the Connections Group, controlled by the Issuer. The financial indicators included in this report have been presented not only individually (separately) for the Issuer, Connections Consult S.A., but also compiled at the level of the CONNECTIONS Group. We have chosen this presentation individually at the level of the Issuer and compiled at the level of the Group, in order to provide an accurate picture of the investment performance of those who participated in the capital increase from the private placement in July 2021 and the outlook for the Group. The CONNECTIONS strategy, indicator monitoring and business development are always approached in an integrated manner at Group level. This has been the case since the technical listing on the BVB in 2021, continued in 2022 and will continue in the future.

Connections Consult S.A., the Group's flagship company, was established in 2005 in Bucharest - Romania, as a limited liability company, and on 02.06.2021 it became a joint stock company.

In 2007, Connections Technology was founded, whose main activity was and is to implement software development contracts, and in 2015 the company Outsourcing Support Services was founded with the aim of providing staff resource contracting services.

The Group offers clients the opportunity to optimise and reshape their business processes and align with current digital trends, using technology tools to improve their KPIs and adapt to global market challenges.

In 2016, Connections marked the first steps of regional expansion with the opening of offices in Belgrade -Serbia and Sofia - Bulgaria. At the same time, through sales representatives in Germany and Saudi Arabia, Connections Group expanded its customer portfolio targeting international markets.

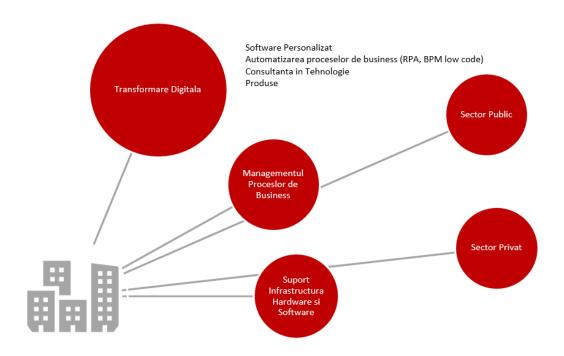

In 2022, the US and UK sub-subsidiaries joined the Group, as well as, as a minority investment, 10PLUS Future Education srl. The current report does not include these three new entrants to the Connections ecosystem in the data compiled.

2.1 Business lines - portfolio of products and services

Following market developments in 2022, and in conjunction with the development of internal capabilities, the Software Development, Outsourcing and RPA business lines will be grouped into a vertical called Digital Transformation, with four sub lines: Custom Software Development, Business Process Automation, Technology Consulting and Products.

So the Connections portfolio of services and products looks like this in 2023:

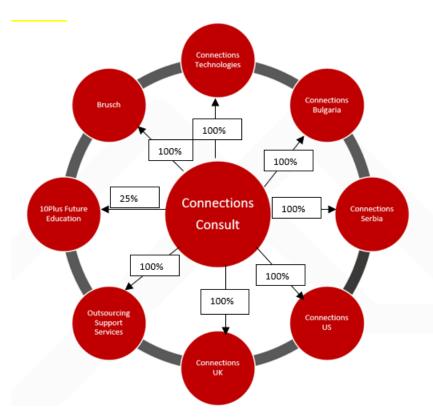

Digital transformation services will be delivered for both public and private sector customers, for foreign markets and Romania.

The product portfolio includes:

- 1. Contabot virtual accountant
- 2. Id Scanner tool for extracting data from identity cards
- 3. Quick Merlin (2022) tool for extracting data from financial balances
- 4. NexGen (2022) low-code platform for accelerating software development
- 5. Apollo/OneApp project management application for consultancy

2.2 Connections Group Structure

2.3 Short description of the activity:

Connections assists clients on their journey to real digital transformation. The *Business Process Management (BPO)* division optimizes business processes, reshapes them and prepares them for digitization, the *Digital Transformation* vertical implements the actual tools, while the *Infrastructure Support* business line provides the foundation for the new system to work. In this way, with an integrated approach, we have ready in the Group all the competencies needed for a successful migration from the traditional economy to Industry 5.0, the 5th industrial revolution, in which creativity will join hands with technology, ensuring a solid balance between the power of human innovation and the power of machine execution.

3. Connections Group activity analysis in 2022

3.1 Analysis of the Group's financial results

In 2022 - a landmark year in the Group's history - Connections achieved in terms of financial performance results above initial estimates, and, considerably better than in 2021.

The tables below show a comparative analysis of the main income statement indicators for 2022 actual, 2022 estimated and 2021.

	Compiled Made 2022	Compiled Estimate 2022	Compiled Made 2021
	(RON)	(RON)	(RON)
Operating income	58.460.347	61.320.982	45.325.286
Operating expenses	(53.581.806)	(56.033.663)	(41.864.217)
Operational result	5.178.541	5.287.319	3.461.068
Financial result	(65.357)	(36.000)	(1.389)
Gross Profit	5.113.184	5.251.319	3.459.679
Net Profit	4.288.488	4.737.032	3.030.649
Gross Margin	9%	9%	8%

	Results 2022 vs Estimated 2022	Results 2022 vs 2021
Total income	-5%	29%
Operating expenses	-5%	27%
Operational result	-2%	50%
Gross Profit	-3%	48%
Net Profit	-9%	42%

INCOME

Total revenue increased by 29% compared to 2021. The main business line contributing to the growth is Software Development, which, both through significant contracts with state institutions and implementation projects with partners

from the private sector, generated significant revenues. Compared to the estimate for 2022, revenues were slightly lower, by 5%, a gap that was however offset by savings in operating expenses.

GROSS PROFIT

Gross profit increased by a remarkable 48% compared to 2021, under the impact of software development projects and optimizations made in the Service Delivery team. Compared to the estimated gross profit for 2022, it was only 3% below.

GROSS MARGIN

The gross margin of the whole group increased to around 9% compared to 2021 when it was 8%, under the impact of expense optimization and, what is more encouraging, it was above the initial expectations for this year.

We assess as positive the results published at group level and consider that the outperformance of the estimates in the Memorandum published prior to the listing denotes the company's ability to deliver increasingly better results to the market.

3.2 Analysis of service lines

COMPOSITION OF THE TURNOVER OF THE CONNECTIONS GROUP

Revenues generated by each service line (hereafter referred to as *Departments*) have developed in line with the Group's strategy to focus on new technologies.

The target to increase the contribution of new digital technologies to total annual revenues, mentioned in the Private Placement Memorandum, has been achieved for 2022, with the share of software and RPA lines accounting for 42% of revenues in 2022, up from 28% in 2021. Although the share of RPA remained constant (6%), the Software division experienced rapid growth on the back of significant new contracts. Growth was matched by a gradual decrease in the share of traditional services - BPO & ITO - which demonstrates the Group's commitment to shaping a regional leader in digital transformation.

2022	ВРО	ІТО	Sw	RPA	Others
% Group revenue	48%	10%	36%	6%	0%

2021	ВРО	ITO	Sw	RPA	Others
% Group revenue	58%	12%	22%	6%	2% əğe

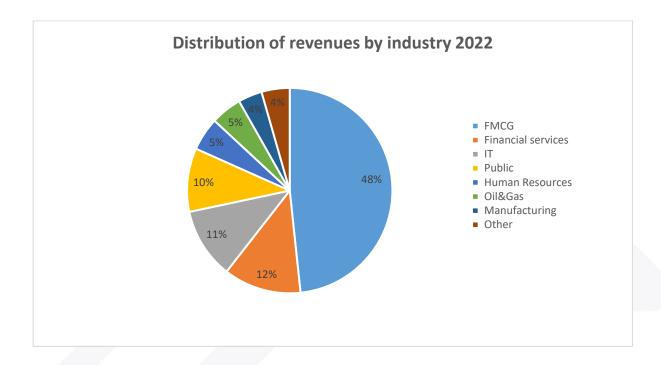

ABSOLUTE VALUES

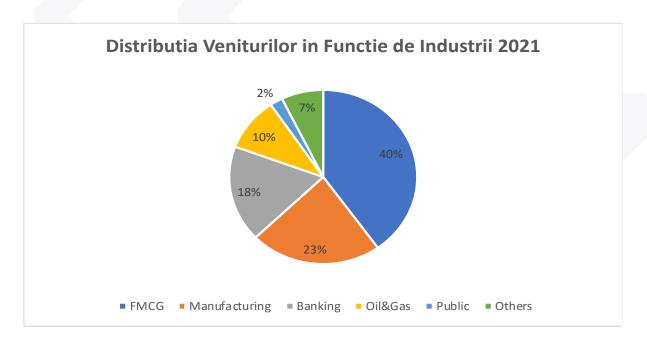

The comparisons below highlight significant revenue increases for Software and RPA, but also an increase for the BPO and ITO lines. Note that compared to the previous year, Software revenue doubled.

Department	Revenue 2022 Realised	Revenue 2021 Realised	Comparison
	(RON)	(RON)	(RON)
ВРО	27,805,356	26,055,103	7%
ІТО	5,819,744	5,412,674	8%
Sw incl Brusch	21,064,983	10,191,649	107%
RPA	3,531,024	2,668,240	32%
Other	239,240	997,620	-76%
Total	58,460,347	45,325,286	29%

Below, we have presented the comparisons with the initial estimates. Overall, revenues were 5% lower than estimated, mainly due to non-materialised BPO and ITO projects, which are not related to the company's performance.

Department	Revenue 2022 Realised	Revenue 2022 Estimated	Comparison
	(RON)	(RON)	(RON)
ВРО	27.805.356	30.709.600	-9%
ІТО	5.819.744	6.077.473	-4%
Sw incl Brusch	21.064.983	21.328.754	-1%
RPA	3.531.024	3.129.536	13%
Others	239.240	75.319	216%
Total	58.460.347	61.320.982	-5%

In terms of the source of revenue by economic sector, the distribution is roughly similar to 2021. FMCG and Manufacturing remained the main sectors served, with around 60% in both years. The public sector is exclusively represented in the revenue generated by the Software department, through significant new contracts.

4. Highlights of Connections in 2022

BOARD OF DIRECTORS

In 2022, following the AGM on 30.04.2022, Connections appointed a Board of Directors composed of three members:

Bogdan Florea - President

Oana Beldie - member

Corneliu Stanciu - member

In this way, we have taken a step forward towards establishing a transparent and robust corporate governance system.

SHARE SPLIT

In May 2022, Connections completed the 1:11 stock split taking the price of a share into the 1-10 range. Thus, Connections shares became more affordable as a unit price, and the action aims to increase liquidity in the market.

COMPANY ACQUISITION

In June 2022, Connections became a shareholder of 10Plus Future Education, a digital education (edtech) company with great potential in the Romanian and regional market, with a 25% stake. Connections plans to support the company's transformation into a digital technology start-up and to create a consistent customer base.

SIGNIFICANT CONTRACTS

The year 2022 was probably the period in which Connections signed the most complex technology contracts since its inception. The four significant contracts signed with: the Official Gazette, the Ministry of Justice, the Superior Council of Magistracy and the National Health Insurance House are a relevant proof of our ability to implement large and highimpact projects. It represents the first step of what will be reflected in our strategy for the next 3-5 years, namely achieving the status of preferred partner for digital enterprise solutions at national level. Of the four projects mentioned above, one of them - the one with the Official Gazette - has already been delivered and cashed, and two others - CSM and CNAS - will be completed during 2023. Also related to significant projects in the public sector, in 2022 we delivered the project with ANRE implementing the 24-hour gas and energy furnace changeover (POSF), a project started in the previous year. The importance of these projects is also represented by the technological challenge they bring and which attracts more talented and highly qualified staff.

4.1 Business and sales strategy for 2022-2026

In last year's report, we mentioned some strategic objectives that we see as necessary for business development in Connections. We reprint them below and for each one we comment on the degree of achievement. We maintain the objectives formulated a year ago and consider them applicable to a period extending to 2026.

- 1. Technology partnerships with established technology vendors: UiPath, Microsoft, Aurachain the ability to deliver projects with the mentioned technologies can pave the way for other possible projects independent of them - 100%: with the exception of Microsoft with whom we are in the last phase of signing a partnership, with the other two companies: UiPath and Aurachain we have signed or maintained our existing partnerships.
- 2. Digital Marketing: recent years have marked a shift in the efficiency of the customer acquisition process from the traditional cold calling area to the digital space, through the application of digital marketing techniques. We are already seeing results - customers interested in our products obtained through precisely targeted digital marketing campaigns - geography, industries, interests - 100% - the budget allocated to digital marketing activities accounted for about 1% of the year's revenue in 2022 and will exceed 1% in 2023. The results are visible in the increase in absolute value of revenues from foreign markets and those related to products developed by the company (Contabot and ID Scanner).
- 3. Consultative selling more and more customers are aware of their digitisation needs but are unable to generate detailed and accurate analysis to help suppliers define viable architectures and realistic offerings. We help them by offering consultancy to generate, together with them, useful and effective digitisation models. To this end, we engage or partner with companies or individuals with expertise in the client's field of activity. In other words, we are migrating from the area of selling technology services, to that of business services with a technology footprint - 30%: we are at the point where we are building synergies between business and technology teams. For Connections, this is the most important bet in terms of our project approach philosophy.
- 4. We aim to be intensively active in the Romanian and EU public tenders sphere, betting on a significant influx of public investments in the field of digitization (PNRR, EU funds from 2021-2028). In order to achieve this goal we plan to build a strong team for bidding and participation in public tenders (bid) - 100%: we already have the public tenders team built and it is one of the most competitive in the Romanian IT market. The projects signed with several public sector clients increase the degree of fulfilment of this indicator.

5. Significant clients

CONNECTIONS

The Connections Group serves a range of reputable clients, from multinational companies in the financial services (banking, insurance), FMCG, technology, logistics and utilities sectors, to local companies and non-governmental organisations.

Over the past 10 years, the Group has served more than 100 clients, 30% of which are Fortune 100 companies. The Company's portfolio includes clients in four regions: Europe (Belgium, France, Switzerland, Poland, Hungary, Turkey, Netherlands, UK, Germany), North America (USA), Middle East (Saudi Arabia, Lebanon) and Asia (Vietnam, India).

For reasons of client confidentiality, guaranteed by the service contracts, the Company cannot name large clients, but can only provide general information about them.

The main industries in which the Group's customers operate are:

Technology and engineering

- Client x multinational company (Top 50 Fortune Global)
- Various Romanian companies IT integrators, software developers

Logistics and Distribution

- Client x large local company (+ EUR 50 million turnover)
- Client x multinational company based in Germany (+600 million EUR turnover)

Health

- Client x Network of private clinics, local company
- Others

Oil and gas

- Direct client technology company (Top 50 Fortune India), final client Oil&Gas company (Top 500 Fortune Global)
- Others

Production

- Client x German company with a turnover of over EUR 1 billion
- Others

FMCG

- Multinational company 1, Fortune 500 Global
- Multinational company 2, Fortune 500 Global
- Multinational company 3, one of the 3 largest global brewers
- Others

Public/Government

- **ANRE**
- Ministry of Justice
- National Health Insurance House
- Superior Council of Magistracy
- Official Gazette

Financial Sector

- Banks: 5 of the 15 largest banks in Romania, 1 bank in Saudi Arabia (out of top 3)
- Credit collection: company in the top 3 collection and debt management agencies in Romania
- Insurance: top 3 company in the insurance industry in Romania

Energy and Utilities

- Customer 1 one of the top 3 electricity suppliers
- Customer 2 one of the top 3 natural gas suppliers
- Client 3 one of the top 3 drinking water distribution

The level of revenues from external markets remained at around 20% of total revenues, even though total revenues increased by almost 30%. Over the next 3 years we aim to stabilise the Group's external revenues at around 40% of total revenues.

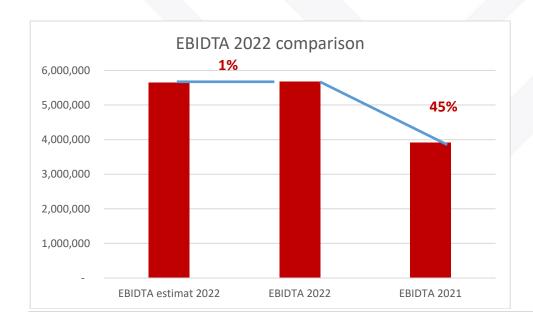

6. Operational indicators

EBITDA margin increased slightly compared to 2021, from 9% to 10% on the back of revisions to certain cost items.

As can be seen in the table below, realized EBITDA is 45% higher than in 2021.

This was due to the group's commitment to develop a number of new products that will ensure sustained growth and diversification of the company's business, as well as an improvement in EBITDA margin. Going forward, these products will be expected to open up new markets and potential lines of business with increased profitability.

The concurrent growth in turnover and share of digitization projects has been above initial expectations and will generate a 33% compound annual growth rate (CAGR) in EBITDA over the next 3 years, and a 35% per annum growth in net profit over the same period to 2024. In 2022 the growth was an admirable 45% over the previous year.

2023 is a year of internal construction. We have a major effort ahead of us in strengthening corporate governance and organisational culture, as well as major deliveries on projects already won or even completion of some of them. At the same time, we want the products we have bet on to start counting in the final annual balance sheet. 2023 is also the year in which the company's premises will change, on the one hand because the current lease expires, and on the other because the number of colleagues is constantly growing. We need a new office, adapted to the current needs of the labour market.

8. Revenue and expenditure budget for 2023

8.1 PRESENTATION OF MAIN INDICATORS CONNECTIONS 2023 BUDGET:

CONNECTIONS

For the year 2023, the Connections Group's management is focusing mainly on the development of the software development line. The estimate for operating revenues for software development + outsourcing is 72% growth compared to 2022. Total estimated operating revenues for the year 2023 amount to 82 million lei, and the main contributors to the generation of these revenues are Service Delivery with estimated revenues of 41 million lei with BPO and ITO subdivisions, respectively Software Development + Outsourcing with estimated revenues of 36 million lei.

The growth in Software Development division revenues is forecast as a result of two main directions:

- Contracting large-scale projects in the public domain;
- Development of the solution palette for specialized software support know-how within Brusch.

To increase revenues in the Service Delivery division, Connections Group management is counting on innovative products that are important differentiators in relation to the market offer.

Marja neta																	•				7%

The estimated EBITDA margin for 2023 is 9% and the estimated net margin is 7%. The net margin is conservatively estimated considering the overall growth in activity across all service lines, and the Group's management aims to exceed this indicator for 2023. In absolute terms, net profit is estimated at RON 5.6 million.

In terms of the Group's revenue evolution by main business lines (divisions), the table below shows a slightly more conservative 5-year compound average growth rate (2023 estimated) for the Service Delivery division (9%) while the Software Development division shows a more accelerated rate of 60%. However, it should be noted that the Service Delivery division remains a pivotal area for Connections Group's business, generating the most significant revenues.

EVOLUTIE CAGR VENITURI GRUP CONNECTIONS (5 ANI)

(
VENITURI PE LINII													
DE SERVICII	2019	2020	2021	2022	2023	CAGR							
SERVICE DELIVERY	26,711	30,740	31,468	33,625	41,115	9%							
SOFTWARE	\ \

RPA	1,187	2,132	2,668	2,988	4,295	29%							

In terms of the Group's operating performance, for 2023 the operating margin is estimated at 10%. The estimate is incremental increase compared to previous years when it was 9% and 8% respectively. This will allow us to achieve a net margin that is budgeted at 7%. In order to achieve this objective, management is focused on optimizing costs and achieving synergies at the operational level that will contribute to streamlining the Group's activities and thus increase financial performance.

EVOLUTIE PERFORMANTA OPERATIONALA GRUP CONNECTIONS

9. Analysis of individual situations: performance and financial position

THE FINANCIAL POSITION OF THE ISSUER

9.1 Strengthening the Financial Position in 2022

The year 2022 meant for Connections Consult the further strengthening of the financial position in the Balance Sheet. The company has seen an increase in the value of assets readily convertible to cash, as revealed by the comparative balance sheet statement 2021 versus 2022. The increase in current assets is mainly due to the increase in the receivables balance as at 31 December 2022 compared to 2021, correlated with a decrease in the cash balance. This is due to the use of cash for business growth.

At the end of 2022, the issuer recorded a balance of current assets of 22,009,819 lei, of which 4.5 million lei represented cash and short-term investments.

A. FIXED ASSETS	31 December 2021	31 December 2022
I. INTANGIBLE FIXED ASSETS	912.534	1.196.167
II. TANGIBLE IMMOBILISATIONS	406.601	219.846
III. FINANCIAL FIXED ASSETS	1.534.203	1.711.595

II.CREATING	11.894.138	17.456.099

III. SHORT-TERM INVESTMENTS	-	-
IV. HOUSE AND BANK ACCOUNTS	7.881.549	4.553.405
CURRENT ASSETS - TOTAL	19.775.687	22.009.820

9.2 Explanation of changes in liabilities

The short-term debt balance at December 2022 was similar to that at December 2021. However, considering the increase in the current assets balance, the Company's position is considerably better with a net current assets indicator increasing from 11,034,754 at December 2021 to 13,253,099 at December 2022.

The long-term debt balance has increased by the amount of bonds to be paid as a result of a strategic investment in 10Plus Future Education SRL.

The balance of revenue recorded in advance increased significantly as a result of revenue received for maintenance over the next 6 years under the significant software project with the public institution commenced in 2021 and completed in 2022.

	31 December 2022	31 December 2021

H. PROVIZIOANE	268.874	228.276
I. PREPAID INCOME	40.814	1.603.159

9.3 Net Assets

The issuer's net asset value increased in 2022 to 15,915,422 compared to 13,471,096 in 2021 on the back of the performance achieved this year. This performance was achieved through a considerable increase in revenues compared to 2021, mostly from the Software division, but also from existing business lines such as BPO and ITO.

THE FINANCIAL PERFORMANCE OF THE ISSUER.

The Issuer's total revenues increased significantly in 2022 compared to 2021, from 32,175,455 lei in 2021 to 42,422,378 lei, an increase of 31%. This was due to the growth of the business lines on which the Issuer is betting in the coming years, Software and RPA, but also to the already existing lines such as BPO and ITO.

A positive development was the revenue from the sale of licenses, which recorded a favorable variation of 188% (from 1,752,919 lei in 2021 to 5,060,216 lei in 2022) on the back of the interest shown by Beneficiaries in solutions provided by UiPath.

Total expenditure increased by 28% compared to last year, from 30,763,176 in 2021 to 39,632,342 in 2022. The smaller increase in expenses compared to revenues generated a positive impact overall, with gross profit almost double in 2022 compared to 2021 (2,790,036 lei in 2022 compared to 1,412,279 lei in 2021).

Details of the presentation of the Profit and Loss Account as at 31 December 2022 individually can be found in the annexes to this Report.

10. Risks

The company analyses potential risks through its internal risk management system and tries to anticipate and neutralise them before potential consequences arise. However, many of the risks to which the Company is subject are beyond its control.

10.1 Risks related to the company's activity

General economic risks - the Issuer's activities are sensitive to economic cycles and general economic conditions. Both international financial crises and the unstable economic environment may have significant negative effects on the Issuer's business, operating results and financial position. Socio-political turmoil may also impact the Company's business.

Risk associated with key people - the company carries out a business that requires advanced knowledge and specialisation. The company depends on recruiting and retaining senior management and skilled employees. The medium and long-term profitability of the company depends, to a large extent, on the performance of qualified employees, staff and executive management, which are particularly important for its development.

Tax and legal risk - the issuer is governed by Romanian legislation and, even if the Romanian legislation has been largely harmonised with EU legislation, further changes may occur, i.e. new laws and regulations may be introduced, which may have effects on the company's activity. Romanian legislation is often unclear, subject to different interpretations and implementation and frequent changes. Both changes in tax and legal legislation and possible events generated by their application may result in possible fines or lawsuits against the company, which may impact the Issuer's activity.

Litigation risk - Although the Issuer takes great care to comply with all legal provisions, in the context of the conduct of its business, the Issuer is subject to litigation risk and other legal proceedings. The Issuer may be affected by contractual or non-contractual claims, complaints, including from counterparties in contractual relationships, customers, competitors or regulatory authorities. Any negative publicity associated with such an event may also have an influence.

At the date of this document, the Issuer is not involved in legal proceedings.

Risk of seizure of the Issuer's accounts - seizure of accounts is a foreclosure measure that can be applied to a company. Thus, the Issuer's accounts may be blocked as a result of the attachment if creditors of the Issuer request this measure to recover their debts. The impounding of the Issuer's accounts entails the freezing of the amounts in the impounded accounts and may result in the company being hindered or prevented from honouring future obligations on agreed terms.

Risk of loss of reputation - is a risk inherent to the Issuer's business, reputation being particularly important in the business environment, especially if the company wishes to expand its business to other markets. The ability to expand its portfolio in order to develop its business depends on the recognition of the Issuer's brand and the establishment of its products in the target markets.

Risk associated with interest rates and funding sources - in the event of a deterioration of the economic environment in which the Issuer operates, the Issuer could find itself unable to take out a new loan on the terms it has previously benefited from, which could lead to increased funding costs and negatively affect the Company's financial situation.

Price risk - this is the risk that the market price of products and services sold by the company will fluctuate to such an extent as to make existing contracts unprofitable. The company closely monitors market prices and, if necessary, may withdraw from contracts that risk becoming unfavourable.

Personal data protection risk - in the course of its business, the company collects, stores and uses data that is protected by personal data protection laws. Although the Issuer takes precautionary measures to protect customer data in accordance with the legal requirements on privacy protection, especially in the context of the implementation of the General Data Protection Regulation (EU) 2016/79 and in Romania (as of 25 May 2018), the risks of data leakage cannot be completely eliminated.

Cash-flow risk - this is the risk that the Company will not be able to meet its payment obligations when due.

Liquidity risk - includes the risk arising from the possibility of non-recovery of debts. Due to the specific nature of its activity, the Company maintains a level of receivables and payables that allows the optimal conduct of its business.

Counterparty risk - this is the risk that a third party natural or legal person will fail to meet its obligations under a financial instrument or customer contract, thereby resulting in a financial loss. The Company is exposed to credit risk from its operating activities (mainly for external trade receivables) and from its financial activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Risk associated with insolvency and bankruptcy - Romania's bankruptcy and enforcement laws do not provide the same level of rights, remedies and protections enjoyed by creditors under the legal regimes of other EU jurisdictions. In particular, Romanian bankruptcy and enforcement laws and practice may make recovery by Issuers of secured and unsecured claims in Romanian courts more difficult and time-consuming than in other countries. In recent years, insolvency in Romania has experienced an unfavourable dynamic, with insolvent companies, as well as companies reporting net losses, being largely responsible for the worsening payment discipline in the economy as a whole.

Pandemic risk - Although ignored in recent decades, this risk (in particular the risk of global epidemics, i.e. the risk of a pandemic) has relatively recently returned to public attention. Although for some companies this may become an opportunity, at least in the short term, the overall economic impact is considered to be negative. Thus, there are views that, depending on the nature and severity of the epidemic/pandemic, it can induce recessions lasting a quarter or even several years.

Other risks - Potential investors should consider that the risks outlined above are the most significant risks of which the company is aware at the time of writing. However, the risks presented in this section do not necessarily include all those risks associated with the Issuer's business and the Company cannot guarantee that it encompasses all relevant risks. There may be other risk factors and uncertainties of which the Company is not aware at the time of writing which may change the actual results, financial conditions, performance and achievements of the Issuer in the future and lead to a fall in the price of the Company's shares. Investors should also undertake the necessary due diligence in order to make their own assessment of the suitability of the investment.

Therefore, the decision of potential investors as to whether an investment in financial instruments issued by the Issuer is appropriate should be made after a careful assessment of both the risks involved and the other information about the Issuer contained or not contained in this document.

10.2 General risks concerning Shares

Investment Opportunity Assessment

Each potential investor in Shares must determine, based on its own independent analysis and/or professional recommendations which it considers appropriate in the circumstances, the suitability of the investment in question.

Every potential investor should, in particular:

- have sufficient knowledge and experience to make a meaningful assessment of the Shares, the a) benefits and risks of investing in the Shares and the information contained in the Memorandum or any supplement thereto;
- b) have access to and possess the necessary information on appropriate analytical methods and tools to assess, in the context of its specific financial situation, an investment in Shares and the impact of Shares on its overall investment portfolio;
- c) have sufficient financial resources and liquidity to bear all the risks of an investment in Shares;
- d) fully understand the terms of the Shares and be familiar with how any relevant indices and financial markets are evolving; and
- e) be able to assess (either on its own or with the assistance of a financial advisor) possible scenarios regarding economic, interest rate and other factors that may affect the investment and its ability to bear the related risks.

Tax regime

Potential buyers and sellers of Shares should be aware that they may be required to pay taxes or other documented fees or commissions in accordance with Romanian law and practice. Prospective investors are advised not to rely solely on the tax information contained in this Memorandum, but to consult their own advisers regarding their specific tax obligations applicable to the purchase, holding or sale of Shares. Only such advisers are in a position to correctly assess the particular circumstances of each potential investor. This investment analysis should be corroborated with the tax regime sections of this document.

Legislative changes

The terms of the Shares (including any non-contractual obligations arising out of or in connection therewith) shall be based on the relevant laws in force at the date of this Memorandum. No assurance can be given as to the impact of any possible court decisions or legislative changes or official application or interpretation of such laws or administrative practices subsequent to the document.

The risk of direct investment in shares

Investors should be aware of the risk associated with a direct investment in equities, which is much higher than the risk associated with an investment in government securities or investment fund shares, given the volatile nature of the capital markets and share prices.

Risk associated with future share price and trading liquidity

Share prices and trading liquidity for companies listed on the SMT depend on the number and size of buy and sell orders placed by investors. There can be no guarantee as to the future price of the Company's shares and no guarantee as to their liquidity. It is not possible to guarantee that an investor who buys the shares will be able to sell them at any time at a satisfactory price.

Market Value of Shares

The value of the Shares depends on a number of interrelated factors including economic, financial and political events occurring in Romania or elsewhere in the world, including factors affecting the capital markets in general and the stock exchanges on which the Shares are traded. The price at which a holder of Shares will be able to sell the Shares may contain a discount from the purchase price paid by such purchaser, which may be substantial.

11. Corporate governance issues

CONNECTIONS has taken important steps to ensure good corporate governance. To this end, steps have been taken to hire experienced professionals in key positions, namely COO and CFO. At the time of publication of this report, the positions are already filled.

Connections is working to select advisors to fill positions on the future Advisory Board that will be operational in the first quarter of 2022.

At the same time, starting next year, Connections management will harmonise reporting standards and procedures to ensure an effective control environment. Accounting policies will be prepared in accordance with the relevant legislation in force.

12. Executive team and Board of Directors

In 2022, the Group's executive team (Steering Committee) will consist of:

Bogdan Liviu Florea - co-CEO

With over 20 years of experience in the IT&C field, Bogdan Liviu Florea is specialized in software project management and integration.

Passionate about business development Bogdan is a graduate of the Vienna University of Economics and Business.

Professional experience:

- July 2005 Present: CEO Connections Consult
- May 2020 Present: Member of Board of Advisors CEE Digital Services Association
- January 2019 Present: Vice President Employers Association of the Software and Services Industry (ANIS)
- June 2001 October 2007: Software Developer / Project Manager Freescale Semiconductor

Education and training:

- Master of Business Administration Vienna University of Economics and Business, 2009 2011
- Executive MBA Carlsson School of Management, 2009 2010
- Master's and Bachelor's studies Polytechnic University of Bucharest, 1997 2002

Mr. Bogdan Florea holds 74.42% of the Company's shares.

Radu Marcu - Co-CEO

A graduate of the Bucharest Academy of Economic Studies, Radu comes with extensive experience in managing software development activities, as Director of Software On Demand and Business Applications, with strong communication and coordination skills gained over time as a team leader.

Professional experience:

- 2021 present Chief Operating Officer, Connections Group
- 2018-2021 Director of Software Development and Business Applications
- 2016 2018 Interactive Software Sharepoint Architect
- 2007 2016 National Defense System, Engineer, Software Developer, Team Leader

Education and training:

- Bachelor's degree Technical Military Academy "Ferdinand I"
- Master studies Academy of Economic Studies, Bucharest

Mr. Radu Marcu holds 0.3% of the Company's shares.

George Nita - Hyperautomation Manager

Graduate of the "Politehnica" University of Bucharest and Software Engineer with over 20 years of experience. Strong coordination and planning skills acquired as a result of 8 years experience as Project Manager. Currently, George is Connections Hiperautomation Manager and RPA Developer with over 4 years of experience.

Professional experience:

- February 2017 Present: Automation Manager Connections Consult
- January 2010 January 2017: Software Engineer Luxoft

Education and training:

• Bachelor's degree - Polytechnic University of Bucharest, 1997 - 2002

Mr. George Nita holds 1.66% of the Company's shares.

Vlad Sgindar - Service Delivery Manager, Deputy General Manager

Service Delivery Manager with relevant experience and a proven track record of working in the information technology and services industry.

Skills in negotiations, business planning, customer relationship management (CRM) and management.

Graduate of Dimitrie Cantemir Christian University, Finance and Banking, specialized in negotiations, business planning and customer relationship management.

<u>Professional experience:</u>

- September 2015 Present: Service Delivery Manager Connections Consult
- June 2013 August 2015: Business Development Manager Connections Consult
- September 2008 June 2013: Underwriter Asirom Vienna Insurance Group

Education and training:

Bachelor's degree (Finance and Banking) - Dimitrie Cantemir Christian University, 2004 - 2008

Mr. Vlad Sgindar holds 2.50% of the Company's shares.

Magda Cristescu - Operations Manager, Deputy General Manager

Magda is a manager with a wealth of experience in service delivery within the IT&C industry (Genpact, Huawei, Cosmote), and over 5 years of experience in BPO service industry activities.

Professional experience:

- September 2014 Present: Operations Manager Connections Consult
- January 2009 November 2013: Equipment & Services Network Infrastructure Procurement Head of Office - Cosmote
- January 2007 January 2009: Senior Buyer Genpact
- January 2006 January 2007: Logistics & Acceptance Specialist Huawei Technologies

Education and training:

• Bachelor studies - University of Bucharest, 1995 - 1999

Magda Cristescu holds 0.08% of the Company's shares.

Claudiu Staniloiu - Recruitment & Employer Branding Manager

A graduate of the National School of Political and Administrative Studies in Bucharest, he specializes in R&D strategies, Organization Charting, Coaching, Change Management and Organizational Development. Strong communication and coordination skills acquired in over 7 years of experience in HR.

Professional experience:

- April 2019 Present: Recruitment & Employer Branding Manager Connections Consult
- October 2018 April 2019: HR Manager Key Way Services
- April 2011 October 2018: Recruitment, Training & Development Officer NN Group

Education and training:

- Master studies National School of Political and Administrative Studies of Bucharest (SNSPA), 2006 2008
- Bachelor studies Ovidius University of Constanta, 2002 2006

Mr. Claudiu Staniloiu holds 0.17% of the Company's shares.

Decebal Dumitrescu - Chief Financial Officer

Graduate of Northwood University USA, BBA graduate and holds an MBA degree from Sheffield University UK. Decebal has more than 20 years of experience in finance and financial consulting. He has held management positions in multinational companies. In his career he has worked on ERP implementation projects, financial restructuring projects, fundraising and tax law change projects among others. Mr Decebal Dumitrescu does not hold any shares in Connections Consult SA.

14.5 APPENDIX 5 - INDEPENDENT AUDITOR'S REPORT

RAPORTUL AUDITORULUI INDEPENDENT Către CONNECTIONS CONSULT S.A.

Raport cu privire la situațiile financiare

Am auditat situațiile financiare anexate ale CONNECTIONS CONSULT S.A. ("Compania"), care cuprind situația poziției financiare la data de 31 decembrie 2022, situația rezultatului global pentru anul încheiat, situația modificărilor capitalurilor proprii și situația fluxurilor de trezorerie, precum și o sinteză a politicilor contabile semnificative și alte note explicative.

Situațiile financiare menționate se referă la:

Activ net: 15,915,423 lei Rezultatul exercițiului financiar - Profit: 2,444,327 lei

Opinie

În opinia noastră, situațiile financiare anexate prezintă fidel, sub toate aspectele semnificative, poziția financiară a CONNECTIONS CONSULT S.A. la data de 31 decembrie 2022, performanta sa financiară pentru anul încheiat, situația modificărilor capitalurilor proprii și situația fluxurilor de trezorerie, în conformitate cu Ordinul Ministrului Finanțelor Publice nr. 1802/2014.

Bază pentru opinie

Am desfásurat auditul în conformitate cu Standardele Internationale de Audit (ISA) și Legea nr.162/2017 ("Legea"). Responsabilitățile noastre în baza acestor standarde sunt descrise detaliat în secțiunea Responsabilitățile auditorului din raportul nostru.

Suntem independenti fată de Companie, conform Codului Etic al Profesionistilor Contabili emis de Consiliul pentru Standarde Internationale de Etică pentru Contabili (codul IESBA), conform cerintelor etice relevante pentru auditul situațiilor financiare în România, inclusiv Legea, și ne-am îndeplinit responsabilitățile etice conform acestor cerințe și conform Codului IESBA.

Nu am furnizat Companiei servicii non-audit interzise menționate la articolul 5 alineatul (1) din Regulamentul (UE) nr. 537/2014 al Parlamentului European și al Consiliului și am rămas independenti fată de Companie pe durata auditului. Nu am furnizat Companiei sau entităților controlate de aceasta alte servicii în afara celor de audit statutar al Companiei.

Considerăm că probele de audit pe care le-am obținut sunt suficiente și adecvate pentru a forma o bază pentru opinia noastră de audit.

Pagina 1 din 6

Alte aspecte

Atragem atenția asupra următoarelor aspecte:

- Revizuirea limitată a aspectelor fiscale, din cadrul auditului efectuat în conformitate cu Standardele
 Internaționale de Audit nu reprezintă revizie fiscală completă. Atragem atenția că aspectele fiscale nu sunt
 analizate și verificate în mod exhaustiv, ci pe baza materialității informației impusă de Standardele
 Internaționale de Audit.
- COVID-19: Izbucnirea unei pandemii la nivel internațional la finalul anului 2019 a introdus noi provocări și riscuri suplimentare în activitatea companiilor, accelerând o criza financiară mondială care ar putea afecta negativ atât societatea, cât și piața pe care operează. Valorile activelor sunt într-o continuă schimbare ca urmare a tendinței generale de scădere a prețurilor, dar și din cauza lipsei de lichidități generate de restricțiile generale de finanțare impuse prin intermediul băncilor și a altor decizii stabilite de guvern. Efectul cumulat asupra Companiei nu poate fi estimat cu exactitate în acest moment. Prin urmare, nicio ajustare nu a fost adusă situațiilor financiare în scopul de a reflecta această nesiguranță.
- Compania a desfășurat în cursul anului tranzacții cu părțile afiliate. În conformitate cu prevederile legale în vigoare, tranzacțiile între părțile afiliate trebuie să aibă la bază principiul valorii de piață. La un eventual control, autoritățile fiscale sunt îndreptățite să solicite Societății dosarul prețurilor de transfer, care să susțină tranzacțiile efectuate cu părțile afiliate. În acest sens, în lipsa dosarului prețurilor de transfer care să susțină tranzacțiile efectuate cu părțile afiliate, nu am putut obține probe de audit suficiente și adecvate pentru a estima impactul potențial generat de tranzacțiile efectuate de către Companie cu părțile afiliate. Astfel, nicio ajustare nu a fost adusă situațiilor financiare pentru a reflecta potențialele efecte asociate tranzacțiilor efectuate cu părțile afiliate.
- Atragem atenția că CONNECTIONS CONSULT S.A. trebuie să ia în considerare impactul noii reglementări legale în vigoare în România de la 1 Ianuarie 2021 cu privire la acordurile transfrontaliere care trebuie să fie raportate Autorității Fiscale în conformitate cu Directiva Consiliului UE 2018/822 din 25 Mai 2018 (DAC6) de modificare a Directivei 2011/16/UE privind schimbul automat obligatoriu de informații în domeniul fiscal. Raportul se aplică pentru acordurile transfrontaliere începând cu 25 Iunie 2018. Noi, în calitate de auditori, nu suntem obligați să raportăm la Autoritatea Fiscală deoarece nu influențăm și nu intervenim în niciunul dintre eventualele aranjamente ale Companiei care ar putea face obiectul raportării conform prevederilor DAC6. Compania este pe deplin responsabilă să respecte DAC6 și să raporteze la Autoritatea Fiscală Română, dacă este cazul. Prin urmare nu au fost efectuate ajustări de audit pentru a reflecta efectele potențiale asociate cu neconformitatea DAC6, dacă există.
- Starea de război din Ucraina şi măsurile restrictive impuse Rusiei şi Belarus de Uniunea Europeană conduc
 implicit la afectarea funcţionării normale a activităţilor economice şi financiare, cu impact direct asupra
 mecanismelor financiare, care pot conduce la dificultăţi de gestionare a riscurilor şi asigurarea /
 menţinerea condiţiilor normale de desfăşurare a activităţii entităţilor / companiilor din multe domenii de
 activitate. Impactul măsurilor restrictive impuse celor doua state, asupra Companiei, nu poate fi estimat cu
 exactitate în acest moment. Prin urmare, nicio ajustare nu a fost adusă situaţiilor financiare în scopul de a
 reflecta potenţialele efecte.

Aspecte cheie de audit

Aspectele cheie de audit sunt acele aspecte care, în baza raționamentului profesional, au avut cea mai mare importanță pentru auditul situațiilor financiare ale perioadei curente. Aceste aspecte au fost abordate în contextul auditului situatiilor financiare în ansamblu și în formarea opiniei noastre asupra acestora și nu oferim o opinie separată cu privire la aceste aspecte cheie.

Aspecte cheie de audit

Recunoaşterea veniturilor

A se vedea Nota 10 "Cifra de Afaceri" și politica de recunoaștere a veniturilor din Nota 2.

În conformitate cu Standardele Internaționale de Audit, există un risc implicit în recunoașterea veniturilor, datorita presiunii pe care conducerea o poate resimți în legătură cu obținerea rezultatelor planificate.

Activitățile principale din care Compania realizează venituri sunt

- Servicii de hiper-automatizare (Robotic Process Automation, RPA) - analiza, re-proiectarea și
- Managementul proceselor pentru afaceri utilizând instrumente digitale (platforma UiPath)
- Dezvoltare de Software Personalizat
- Suport operațiuni de infrastructura IT atât local ("on-premise"), cât și în cloud
- Digital Business Process Outsourcing (BPO), externalizarea proceselor de afaceri cu suport tehnologic.

Veniturile se înregistrează pe baza principiului contabilității de angajamente. Acestea sunt recunoscute atunci când tranzacțiile și evenimentele se produc și sunt înregistrate în contabilitate și raportate în situațiile financiare ale perioadelor aferente.

Provizioane/Ajustări pentru deprecierea sau pierderi de valoare

A se vedea Nota 8 "Provizioane pentru riscuri și cheltuieli" și Politica de recunoaștere a Provizioanelor din Nota 2 .

Estimarea unui/unei provizion/ ajustări pentru deprecierea sau pierderi de valoare implică raționamente profesionale semnificative din partea Conducerii Societății cu privire la rezultatele probabile ale evenimentelor relevante și cuantificarea obligațiilor probabile aferente.

Abordarea auditului cu privire la aspectele cheie de audit Modul de abordare în cadrul auditului

În cadrul misjunii de audit am efectuat următoarele proceduri de

audit care au inclus, dar nu au fost limitate la acestea: Evaluarea proceselor și controalelor privind existența și

- acuratețea veniturilor înregistrate;
- Inspectarea pe baza de eşantion a contractelor cadru sau cu preț fix încheiate cu dienții, pentru a înțelege termenii și conducțiile de livrare;
- Am analizat rapoartele de activitate pentru un eșantion de tranzacții și am verificat existenta acceptanței din partea dienților;
- Examinarea registrului de vânzări pentru a identifica tranzactii neobisnuite si inspectarea documentatiei aferente pentru a evalua daca veniturile au fost recunoscute în mod corespunzător;
- Efectuarea de proceduri pentru a testa ca veniturile sunt înregistrate în perioada corecta, pentru un eșantion din tranzacțiile înregistrate aproape de sfârșitul exercițiului financiar;
- Testarea pe baza de esantion a creanțelor comerciale prin transmiterea de scrisori de confirmare pentru confirmarea tranzacțiilor înregistrate în cursul perioadei și a soldurilor finale.

Modul de abordare în cadrul auditului

În cadrul misiunii am efectuat următoarele proceduri de audit care au indus, dar nu au fost limitate la acestea:

- Am analizat obligațiile actuale ale Companiei în baza cărora au fost recunoscute provizioanele;
- Am discutat cu conducerea Companiei raționamentele profesionale utilizate la identificarea eventualelor ajustări pentru depreciere sau pierderi de valoarea a activelor la data Situațiilor Financiare.
- Am analizat raționamentele profesionale utilizate de

4th floor, sp.10, District 1, Buchares

Pagine 3 din 6

Provizioanele/ Ajustările pentru deprecierea sau pierderi de valoare se înregistrează pe baza principiului prudenței tinând-se cont că:

- deprecierile, indiferent trebuie recunoscute dacă rezultatul exercițiului financiar este pierdere sau profit. Înregistrarea ajustărilor pentru depreciere sau pierdere de valoare se efectuează pe seama conturilor de cheltuieli, indiferent de impactul acestora asupra contului de profit si pierdere.
- trebuie recunoscute toate datoriile previzibile și pierderile potențiale care au apărut în cursul exercițiului financiar respectiv sau în cursul unui exercițiu precedent, chiar dacă acestea devin evidente numai între data bilanțului și data întocmirii acestuia.
- conducerea Companiei în determinarea rezultatelor probabile ale evenimentelor și cuantificarea potențialelor obligații;
- Am analizat probabilitatea de încasare/scadența creanțelor rezultate din contractele comerciale , protocoale și alte convenții pentru a identifica existența unor posibile ajustări suplimentare pentru deprecierea creanțelor, altele decât cele recunoscute de Companie la data Situațiilor Financiare.

Acest raport este adresat exclusiv asociaților Societății în ansamblu. Auditul nostru a fost efectuat pentru a putea raporta asociaților Societății acele aspecte pe care trebuie să le raportam într-un raport de audit financiar și nu în alte scopuri. În măsura permisă de lege, nu acceptăm și nu ne asumăm responsabilitatea decât față de Societate și de asociații acesteia, pentru auditul nostru, pentru acest raport sau pentru opinia formată.

Situațiile financiare anexate nu sunt menite să prezinte situația financiară, rezultatul operațiunilor și un set complet de note la situațiile financiare în conformitate cu reglementări și principii contabile acceptate în țări și jurisdicții altele decât România. De aceea, situațiile financiare anexate nu sunt întocmite pentru uzul persoanelor care nu cunosc reglementările contabile și legale din România, inclusiv Ordinul Ministrului Finanțelor Publice nr. 1802/2014 cu modificările ulterioare.

Raport asupra conformității raportului administratorilor cu situațiile financiare

Administratorii sunt responsabili pentru întocmirea și prezentarea raportului administratorilor în conformitate cu cerințele Ordinului Ministrului Finanțelor Publice nr. 1802/2014, punctele 489-492, care să nu conțină denaturări semnificative și pentru acel control intern pe care conducerea îl consideră necesar pentru a permite întocmirea raportului administratorilor care să nu conțină denaturări semnificative, datorate fraudei

Raportul administratorilor nu face parte din situatiile financiare.

Opinia noastră asupra situațiilor financiare nu acoperă raportul administratorilor.

În legătură cu auditul nostru privind situațiile financiare, noi am citit raportul administratorilor anexat situațiilor financiare și raportăm că:

- a) în raportul administratorilor nu am identificat informații care sa nu fie consecvente, în toate aspectele semnificative, cu informațiile prezentate în situațiile financiare anexate;
- b) raportul administratorilor identificat mai sus include, în toate aspectele semnificative, informațiile cerute de Ordinul Ministrului Finanțelor Publice nr. 1802/2014, punctele 489-492;

Panina 4 din 6

 c) în baza cunoștințelor și înțelegerii noastre dobândite în cursul auditului situațiilor financiare pentru exercițiul financiar încheiat la data de 31 decembrie 2022 cu privire la Societate și la mediul acesteia, nu am identificat informații incluse în raportul administratorilor care sa fie eronate semnificativ.

Responsabilitatea conducerii pentru situațiile financiare

Conducerea este responsabilă pentru întocmirea și prezentarea fidelă a situațiilor financiare în conformitate cu Ordinul Ministrului Finanțelor Publice nr. 1802/2014 și pentru acel control intern pe care conducerea îl consideră necesar pentru a permite întocmirea de situații financiare lipsite de denaturări semnificative, cauzate fie de fraudă, fie de eroare. Această responsabilitate include: conceperea, implementarea și menținerea unui control intern relevant pentru întocmirea și prezentarea fidelă de situații financiare ce nu conțin denaturări semnificative datorate fie fraudei, fie erorii; selectarea și aplicarea politicilor contabile adecvate; elaborarea estimărilor contabile rezonabile pentru circumstantele date.

În întocmirea situațiilor financiare, conducerea este responsabilă pentru aprecierea capacității Companiei de a-și continua activitatea, prezentând, dacă este cazul, aspectele referitoare la continuitatea activității și utilizând contabilitatea pe baza continuității activității, cu excepția cazului în care conducerea fie intenționează să lichideze Compania sau să oprească operațiunile, fie nu are nicio altă alternativă realistă în afara acestora.

Persoanele responsabile cu guvernanța sunt responsabile pentru supravegherea procesului de raportare financiară al Companiei.

Responsabilitatea auditorului

Obiectivele noastre constau în obținerea unei asigurări rezonabile privind măsura în care situațiile financiare, în ansamblu, sunt lipsite de denaturări semnificative, cauzate fie de fraudă, fie de eroare, precum și în emiterea unui raport al auditorului care include opinia noastră. Asigurarea rezonabilă reprezintă un nivel ridicat de asigurare, dar nu este o garanție a faptului că un audit desfășurat în conformitate cu ISA-urile va detecta întotdeauna o denaturare semnificativă, dacă aceasta există.

Denaturările pot fi cauzate fie de frauda, fie de eroare și sunt considerate semnificative dacă se poate preconiza, în mod rezonabil, că acestea, individual sau cumulat, vor influența deciziile economice ale utilizatorilor, luate în baza acestor situații financiare.

Ca parte a unui audit în conformitate cu ISA-urile, exercităm raționamentul profesional și menținem scepticismul profesional pe parcursul auditului. De asemenea:

- Identificăm şi evaluăm riscurile de denaturare semnificativă a situațiilor financiare, cauzată fie de fraudă, fie de eroare, proiectăm şi executăm proceduri de audit ca răspuns la respectivele riscuri şi obținem probe de audit suficiente şi adecvate pentru a furniza o bază pentru opinia noastră. Riscul de nedetectare a unei denaturări semnificative cauzată de fraudă este mai ridicat decât cel de nedetectare a unei denaturări semnificative cauzată de eroare, deoarece frauda poate presupune înțelegeri secrete, fals, omisiuni intenționate, declarații false şi evitarea controlului intern.
- Înțelegem controlul intern relevant pentru audit, în vederea proiectării de proceduri de audit adecvate circumstanțelor, dar fără a avea scopul de a exprima o opinie asupra eficacității controlului intern al Companiei.
- Evaluam gradul de adecvare a politicilor contabile utilizate şi caracterul rezonabil al estimărilor contabile şi
 al prezentărilor aferente realizate de către conducere.

16

- Formulăm o concluzie cu privire la gradul de adecvare a utilizării de către conducere a contabilității pe baza continuității activității și determinam, pe baza probelor de audit obținute, dacă există o incertitudine semnificativă cu privire la evenimente sau condiții care ar putea genera îndoieli semnificative privind capacitatea Companiei de a-și continua activitatea. În cazul în care conduzionăm că există o incertitudine semnificativă, trebuie să atragem atenția în raportul auditorului asupra prezentărilor aferente din situațiile financiare sau, în cazul în care aceste prezentări sunt neadecvate, să ne modificam opinia. Concluziile noastre se bazează pe probele de audit obținute până la data raportului auditorului. Cu toate acestea, evenimente sau condiții viitoare pot determina Compania să nu își mai desfășoare activitatea în baza principiului continuității activității.
- Evaluăm prezentarea, structura și conținutul situațiilor financiare, inclusiv al prezentărilor de informații, și măsura în care situațiile financiare reflectă tranzacțiile și evenimentele care stau la baza acestora într-o manieră care să rezulte într-o prezentare fidelă.

Comunicăm persoanelor responsabile cu guvernanța, printre alte aspecte, aria planificată și programarea în timp a auditului, precum și principalele constatări ale auditului, inclusiv orice deficiențe ale controlului intern pe care le identificăm pe parcursul auditului.

ATENTE!

Conform prevederilor pct. 1.8(4) alin 4 din Anexa nr. 1 la OMF nr.4268/ 2022, "in vederea depuneni situațiilor financiare anuale aferente exercitiului financiar 2022 în format hârtie și în format electronic sau numai în formă electronică, semnate cu certificat digital calificat, <u>fișierul cu extensia zip v</u>a conține și <u>prima pagină din situațiile financiare anuale</u> listată cu ajutorul programului de asistență elaborat de Ministerul Finanțelor Publice, semnată si scanată alb-negru, lizibil".

Prevederi referitoare la obligatiile operatorilor economici cu privire la întocmirea raportărilor anuale prevăzute de legea contabilității

A Intocmire raportări anuale

- 1. Situații financiare anuale, potrivitart. 28 afin. (1) din legea contabilității:
 - termen de depunere -150 de zile de la Incheierea exercițiului financiar,
- Raportări contabile anuale, potrivit art. 37 din legea contabilității:
 termen de depunere –150 de zile de la încheierea exercițiului financiar, respectiv a anului calendaristic;
 - entități care depun raportări contabile anuale:
 - entitățile care aplică Reglementările contabile conforme cu Standardele Internaționale de Raportare Financiară, aprobate prin OMFP nr. 2.844/2016, cu modificările și completările ulterioare;

 - entitățile care au optat pentru un exercițiu financiar diferit de anul calendaristic; subunitățile deschise în România de societăți rezidente în state aparținând Spațiului Economic European; persoanele juridice aflate în lichidare, potrivit legii în termen de 90 de zile de la încheierea anului calendaristic;
 - sedille permanente ale persoanelor juridice ou sediul în Spațiul Economic European

- Depun situații financiare anuale și raportări contabile anuale:
 entitățile care aplică Reglementările contabile conforme cu Standardele Internaționale de Raportare Financiară, aprobate prin OMFP nr. 2.844/2016, cu modificările și completările ulterioare; și
- entitățile care au optat pentru un exercițiu financiar diferit de anul calendaristic.
- 3. Declarație de inactivitate, potrivit art. 36 afn. (2) din legea contabilității, depusă de entitățile care nu au desfășurat activitate de la constituire până la sfârșitul exercitiului financiar de raportare:
 - termen de depunere 60 de zile de la încheierea exercițiului financiar
- B. Corectarea de erori cuprinse în situațiile financiare anuale și raportările contabile anuale se poate efectua doar în condițile Procedurii de corectare a erorilor cuprinse în situațiile financiare anuale și raportările contabile anuale depuse de operatorii economici și persoanele juridice fără scop patrimonial, aprobată prin OMFP nr. 450/2016, cu modificările și completările ulterioare.

Erorile contabile, așa cum sunt definite de reglementările contabile aplicabile, se corectează potrivit reglementărilor respective. Ca urmare, în cazul corectării acestora, nu poate fi depus un alt set de situații financiare anuale/raportări contabile anuale corectate.

C. Modalitatea de raportare în cazul revenirii la anul calendaristic, ulterior alegerii unui exercițiu financiar diferit de anul calendaristic, potrivit art. 27 din legea contabilităti

Ori de câte ori entitatea își alege un exercițiu financiar diferit de anul calendaristic, se aplică prevederile art. VI alin. (1) - (6) din OMFP nr. 4.160/2015 privind modificarea și completarea unor reglementări contabile.

În cazul revenirii la anul calendaristic, legea contabilității nu prevede depunerea vreunei înstiintări în acest sens.

Potrivit prevederilor art. VI alin. (7) din ordinul menționațin cazul în care entitatea țși modifică data aleasă pentru întocmirea de situații financiare anuale astfel încât exercițiul financiar de reportare redevine anul calendaristic, soldurile bilanțiere raportate începând cu următorul exercițiu financiar 🗓 încheiat se referă la data de 1 ianuarie, respectiv 31 decembrie, iar rulajele conturilor de venituri și cheltuieli corespund exercițiului financiar curent 21, respectiv exercițiului financiar precedent celui de raportare.

De exemplu, dacă o societate care a avut exercițiul financiar diferit de anul calendaristic, optează să revină la anul calendaristic Incepând cu 01 ianuarie 2023, aceasta întocmește raportări contabile după cum urmează:

- pentru 31 decembrie 2022 raportări contabile anuale;
- pentru 31 decembrie 2023-situații financiare anuale.
- D. Contabilizarea sumelor primite de la actionari/ asociați se efectuează în contul 455 31 "Sume datorate acționarilor/asociaților". În cazul în care împrumuturile sunt primite de la entități afiliate, contravaloarea acestora se înregistrează în contul 451 "Decontări între entitățile afiliate".
- 1) Acesta se referà la primul exercițiu financiar pentru care situațiile financiare anuale se refritocmesc la nivelul unui an calendaristic.
- Acesta reprezintă primul exerciţiu financiar care redevine an calendaristic.

Astfel, potrivit exemplului prezentat mai sus, soldurile bilanțiere cuprinse în situațiile financiare anuale încheiste la data de 31 decembrie 2023 se referă la data de 1 ianuario 2023, respectiv 31 decembrio 2023, iar rulajelo contunior de venituri și cheltuieli corespund exercițiului financiar curent (2023), respectiv exercițiului financiar precedent celui de raportare (2022).

3) A se vedea, în acest sens, prevederile pot. 349 din reglementările contabile, potrivit cărora sumele depuse sau lăsate temporar de către acționari/asociați la dispoziția entității, precum și dobănzile aferente, calculate în condițiile legii, se înregistrează în contabilitate în conturi distincte (contul 4551 "Acționari/ asociați conturi curente", respectiv contul 4558 "Actionari/ asociați - dobânzi la conturi curente").

CONNECTIONS CONSULT S.A.

Headquarters: Bucharest, Sector 1, 75-77 Buzesti Street, Et. 14

Com.Reg.Nr: J40/11864/2005

C.U.I.: RO17753763

Social capital: 1.189. 273 lei

CONNECTION CONSULT S.A. presents the following notes to the financial statements as at 31.12.2022:

COMPANY PRESENTATION 1.

CONNECTIONS CONSULT SA. is a European company of innovative technology companies, founded in 2005 in Bucharest under Law 31/1990 and is registered at the Trade Register under number J40/11864/2005.

The company belongs to the category of medium-sized entities as defined in the European Commission's SME Definition User Manual.

These financial statements are our own and do not belong to a group.

ACCOUNTING PRINCIPLES, POLICIES AND METHODS 2.

Principles underlying the preparation of the financial statements

These financial statements are the responsibility of the Company's management and have been prepared in accordance with the requirements of Romanian accounting standards, namely Accounting Law no. 82/1991, republished and Order of the Minister of Public Finance ("OMF") no. 1802/2014, as amended.

These regulations partially transpose the provisions of Directive 2013/34/EU of the European Parliament and of the Council on the annual financial statements, consolidated financial statements and related reports of certain types of undertakings amending Directive 2006/43/EC of the European Parliament and of the Council and repealing Council Directives 78/660/EEC and 83/349/EEC, published in the Official Journal of the European Union No L 182 of 29 June 2013.

OMF No 1802/2014 as amended is harmonised with European Directives IV and VII and differs from International Financial Reporting Standards. As a result, these financial statements are not in line with International Financial Reporting Standards.

These financial statements, prepared in accordance with OMF no. 1802/2014 as amended, must not be used by third parties or by users of the financial statements who are not familiar with OMF no. 1802/2014 applicable in Romania.

These financial statements have been prepared in accordance with the principles regulated by OMF no. 1802/2014 with subsequent amendments as follows:

- 1) Business continuity principle.
- 2) Principle of permanence of methods.
- 3) The principle of prudence.
- 4) Accrual accounting principle.
- *5) Principle of intangibility.*
- 6) The principle of separate valuation of assets and liabilities.
- 7)The principle of non-compensation.
- 8) Accounting for and presentation of items in the balance sheet and income statement taking into account the economic substance of the transaction or commitment in question (economic over legal);
- 9) Valuation principle at acquisition cost or production cost.
- 10) Threshold of significance principle.

Business continuity

These financial statements have been prepared on a going concern basis which assumes that the Company will continue in normal operation for the foreseeable future without becoming unable to continue as a going concern and without a significant reduction in business.

Comparative situations

For each balance sheet item, profit and loss account item, and where applicable, for the statement of changes in equity and the cash flow statement, the amount relating to the corresponding item for the previous financial year is shown.

Using estimates

Statutory accounting records do not always provide sufficient information to accurately determine the adjustments and disclosures required, which is why estimates have been made based on the best available information. Although these individual estimates are subject to some degree of uncertainty, the overall effect on the financial statements is considered immaterial.

Correction of accounting errors

office@connectionsconsult.ro

The correction of accounting errors is made against the retained earnings. Prior period errors are omissions or misstatements contained in the entity's financial statements for one or more prior periods resulting from an error in using or not using reliable information that:

- were available at the time the financial statements for those periods were approved for issue
- could reasonably have been obtained and taken into account in the preparation and presentation of these financial statements.

The accounting records on which these financial statements are based are made in RON ("RON") at historical cost, except for those situations where fair value has been used, in accordance with the Company's accounting policies and with OMF 1802/2014 as amended.

The following specific accounting policies have been applied by the Company:

Tangible fixed assets

(i) Cost

Tangible fixed assets are initially valued at cost determined in accordance with the valuation rules of OMF. 1802/2014, depending on the method of entry into the unit.

Tangible fixed assets are shown in the balance sheet at cost less accumulated depreciation.

The cost of fixed assets acquired consists of the purchase price and the value of other directly attributable costs incurred in transporting the assets to the current location and the cost of site development.

In the context of the sale of fixed assets, the gain or loss on the sale or retirement of an asset is determined as the difference between the proceeds from the sale of the asset and its net book value. Realised gains or losses are recognised in the Profit and Loss Account.

(ii) Depreciation

Tangible and intangible fixed assets are depreciated on a straight-line basis over their estimated useful lives from the time they are brought into use.

The main useful lives used for the different categories of property, plant and equipment are:

- Technical installations (electronic computers and peripheral equipment): 3 years
- Means of transport: 4-6 years
- Tools, devices, instruments and tool kits: 2-10 years
- Furniture, office equipment and others: 2-11 years
- Intangible fixed assets 8 Years or according to the duration of use

Intangible assets

An intangible asset arising from development (or from the development phase of an internal project) shall be recognised if, and only if, an entity can demonstrate all of the following:

- a)the technical feasibility of completing the intangible asset so that it is available for use or sale;
- (b)its intention to complete the intangible asset and use or sell it;
- c)its ability to use or sell the intangible asset;
- d)how the intangible asset will generate probable future economic benefits. Among other things, the entity can demonstrate the existence of a market for the output generated by the intangible asset or for the intangible asset itself or, if it is expected to be used internally, the usefulness of the intangible asset;
- (e)the availability of adequate technical, financial and other resources to complete the development of the intangible asset and to use or sell it;
- (f)its ability to measure reliably the costs attributable to the intangible asset during its development.

Intangible assets are depreciated on a straight-line basis over their estimated useful lives from the time they are put into service, so that the cost decreases to the estimated residual value over their estimated useful lives.

Depreciation of fixed assets

The Company makes provisions for impairment of fixed assets, other than deferred tax and financial assets, whenever their carrying amount exceeds their recoverable amount. The recoverable amount of an asset is defined as the higher of an asset's net selling price and its value in use. The value in use of an asset is the present value of the estimated future cash flows expected from the continuing use of that asset and from its sale.

Stocks

Inventories are stated at the lower of cost and net realisable value. Net realisable value is estimated on the basis of the selling price in the ordinary course of business less costs to complete and selling costs. Stocks are valued by the company on the basis of the purchase cost principle.

Claims

Receivables are valued at their estimated realisable value and, following analysis of the recoverability of certain receivables, insignificant provisions have been made for doubtful debts. For doubtful receivables an estimate was made based on an analysis of all outstanding amounts at the balance sheet date.

Cash and cash equivalents

Cash and cash equivalents include liquid assets and comprise cash in hand and cash in bank accounts.

Debts

Debts are recorded at historical cost in RON. The exchange rate used to convert payables into foreign currency is either that indicated by the customs authorities for imports, or that valid at the date of invoicing of services, or that valid at the date of the transaction according to the relevant regulations.

At each year-end all foreign currency liabilities are revalued using the exchange rate prevailing at the year-end and posted by the National Bank of Romania ("NBR"). All resulting gains or losses are included in the profit and loss account.

Provisions

Provisions are established when there is a precise cause of an economic event and there is uncertainty as to the extent to which that event will materialise. The Company recognises provisions in accordance with the accounting policies in force at the date of preparation of the financial statements.

A provision will be recognised in the accounts when the following conditions are cumulatively met:

- The company has a present obligation arising from a previous event;
- It is likely that an outflow of resources will be required to meet this obligation;
- A reliable estimate of the value of the obligation can be made.

The company makes provisions for: - litigation, fines and penalties, indemnities, damages and other uncertain liabilities; - expenses related to service activity during the warranty period and other expenses related to the warranty given to customers.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If an outflow of resources is no longer probable for the settlement of an obligation, the provision shall be reversed to income.

Loans

Short and long-term loans are shown at the amount outstanding at the balance sheet date.

Share capital

The subscribed and paid-up share capital was recorded separately in the accounts, on the basis of the legal entity's articles of incorporation and supporting documents on capital payments.

Revenue recognition

Revenue is recorded on an accrual basis and is exclusive of VAT and discounts. The Company's income excludes value added tax and comprises the value of goods sold and services rendered, as well as gains from any source, such as sales of fixed assets.

Interest income is recognised periodically on a pro-rata basis as the income is earned, based on the accounting for accruals.

Connections Consult S.A. recognizes the following types of income:

- Recognition of operating income services rendered, income from the production of fixed assets, other operating
- Revenue recognition for Time and Material contracts T&M contracts are contracts that generally involve billing revenue based on units of time performed (hours, days, months) at negotiated rates per unit of time. Revenue relating to T&M contracts is recognised as services are rendered and the related costs are incurred, based on billable time, at a rate negotiated with the beneficiaries;
- Revenue Recognition for Fixed Price Contracts A fixed price contract is a contract where the price is usually not subject to adjustment due to costs incurred, does not depend on the resources used or the time allocated to the project. It takes into account the value of the milestones specified in the contract as occurring during the life of the project and until completion.
- Revenue recognition for resold service contracts Resold service revenue is revenue generated under contracts involving the subcontracting of services to third parties, legal entities, transferring partial responsibility for the delivery that the company charges from the end customer to the subcontractor. They are recognised at the time the services are performed by the party performing the services in question.
- Revenue recognition from maintenance/recurring service contracts Revenue generated under maintenance contracts is negotiated in a fixed amount over a period of time (at least one year), invoiced to customers on a quarterly or monthly basis and recognised monthly in the period in which the service is provided.
- Recognition of revenue from proprietary software sales contracts Revenue from the sale of licences for the use of proprietary software applications is recognised when the right to use the licence is transferred from the user to the customer.
- Recognition of rental income Revenue from royalties, rents are recognised on an accrual basis, as per the contract.

Operating expenses

Operating expenses are recognised in the income statement in the period in which they are incurred.

Contributions for employees

The company pays contributions to the State Budget for social insurance, social pension and unemployment benefit according to the levels established by law and in force during the year, calculated on the basis of gross salaries.

The amount of payroll expenses is recorded in the income statement in the same period as other related company contributions

Financial result

This includes interest payable on loans, interest receivable on cash at banks and term deposits made, and exchange rate differences. The accrual principle is followed for the recognition of these items.

Borrowing costs

Interest expense is recognised in the income statement when it arises.

Corporate tax

Income tax is calculated on the basis of the result for the year adjusted for various non-deductible items. It is calculated using the corporation tax rate in force at the balance sheet date. The tax rate for 2022 is 16%.

Financial leasing

Leases for tangible fixed assets in which the Company assumes all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the estimated present value of payments. Each payment is apportioned between the principal and interest element to provide a constant interest rate over the repayment period. Amounts due are included in short-term or long-term liabilities.

The interest element is charged to the profit and loss account over the life of the contract. Assets held under finance leases are capitalised and depreciated over their useful lives.

Transactions in foreign currency

Transactions denominated in foreign currency are recorded in the accounts at the exchange rate on the transaction date. Monetary assets and liabilities denominated in foreign currencies are translated into RON at the exchange rate on the balance sheet date. The exchange rate at 31 December 2022 was RON 4.9474 to EUR 1. The exchange rate at 31 December 2021 was RON 4.9481 to EUR 1.

All differences arising from the settlement and translation of foreign currency amounts are recognised in the income statement in the year in which they arise. Realised and unrealised losses are expensed, including those on loans.

3. **FIXED ASSETS**

Guarantees associated with loans:

The guarantees associated with the loans are highlighted in the table above. They remain in force until all the guarantor's obligations under the guarantee contracts have been met in full.

8 PROVISIONS FOR RISKS AND CHARGES

As at 31.12.2022, a provision of RON 228,276 has been set up for leave not taken by the company's employees up to the reporting date. The aforementioned balance results from the partial reversal of the provision set up in December 2021 in the amount of RON 268,874. Depending on the context, the provision may be revised, and there are significant premises for its partial or full reversal.

9 CAPITAL AND RESERVES

As of 31.12.2022, the share capital of the Company is 1.189.273 RON, with a number of 11.892.727 shares and a nominal value of 0,1 lei/share, held in the following proportions:

Physical Person: BOGDAN LIVIU FLOREA 75.0779%

Legal entity: CERTINVEST MANAGEMENT 1.0053%

Natural and legal persons: LIST OF SHAREHOLDERS 23.9168%

The change in the amount, structure of the share capital occurred following the issuance of new shares in scrip issue during 2022.

On March 23, 2022, the Extraordinary General Meeting of Shareholders of the company approved the increase of the share capital of S.C. Connections Consult S.A. by the amount of 1,081,157 lei representing 10,811,570 new shares with a nominal value of 0.1 lei/share through the partial use of share premiums for the benefit of shareholders. As a result of the increase, the value of the share capital expressed in lei becomes RON 1,189,273 and the total number of shares is 11,892,727.

10 OPERATING INCOME (INCL. TURNOVER)

The net turnover as of 31.12.2022 is 41.829.811 RON equivalent to 8,454,907.87 Euro at the closing exchange rate of BNR 31 December 2022, 4.9474 RON/EUR.

The operating income earned during 2022 has the following structure:

Operating Income Component Dec'22

	RON

Other Operating Income	29,548
Total Operating Income	42,164,089

11 PROFIT SHARING -

Destination- RON -	2021	2022
Profit to be distributed	1.206.196	2.444.326
- legal reserve	21.583	122,216
- coverage of accounting loss	-	-

- dividend	-	-
- other allocations own sources of financing	-	-
Retained profit for the year	1.184.613	2.322.111

At the end of the financial year 2022, the Company made a gross accounting profit in the amount of **RON 2,790,037**, as the difference between total revenues of **RON 42,381,781** and total expenses of **RON 39,591,744**.

The non-deductible expenses of the company amounted to **599,087 RON**, the taxable fiscal profit being **2,921,197 RON**, after deduction of the legal reserves constituted on 31 December 2022.

The gross income tax calculated was in the amount of **RON 467,392** from which RON 78,000 was deducted representing the maximum amount allowed by tax law. The company benefited from a bonus under GEO 153/2020 in the amount of RON 46,727. Thus the resulting net income tax expense as at 31 December 2022 is **RON 345,710**.

Following the calculation of the income tax as at 31 December 2022, the net profit of the Company is **RON 2,444,327** being the undistributed amount as at the balance sheet date.

At the date of signing the financial statements, no distributions from the 2022 profit have been decided.

12 ECONOMIC AND FINANCIAL INDICATORS

I. LIQUIDITY INDICATORS

Total assets minus current liabilities	13,888,092	17,890,390		
A/B	10%	15%		

I. Liquidity indicators

Current liquidity indicator (working capital indicator), expresses how many times current liabilities are included in current assets

The values obtained (recommended values around 2), reflect a very good capacity to cover current liabilities from current assets, and mainly from receivables and cash.

II. Risk indicators

The degree of indebtedness of the equity capital expresses how many times the borrowed capital (loans for a period longer than one year) is included in the equity capital and reflects the financing structure of the company at the end of the financial year.

The interest cover indicator reflects how many times interest expenses can be covered from profit before interest and tax. The lower the value of the indicator, the riskier the company's position.

III. Activity (management) efficiency indicators

The turnover speed of the receivables balance expresses the number of days until the date when debtors pay their debts to the company and thus shows the effectiveness of the company in collecting its debts.

The turnover speed of the supplier balance expresses the number of days of credit that the Company obtains from its suppliers.

IV. Profitability indicators

Return on capital employed is the return the Company earns on the money invested in the business. Committed capital refers to the money invested in the Company by shareholders and long-term creditors and includes equity and long-term debt.

13 INFORMATION ON EMPLOYEES AND MEMBERS OF THE ADMINISTRATIVE, MANAGEMENT AND SUPERVISORY BODIES

At the end of 2021, the average number of employees of the Company was 209 and the actual number of employees existing at the end of the period was 239.

On 31.12.2022 the average number of employees was 234 and the actual number of employees at the end of the period was 252.

Expenditure on salaries and related contributions was as follows:

Law	2021	2022
Expenditure on staff salaries (including meal vouchers)	17.737.000	20.351.957
Expenditure on insurance and social protection	389.442	454.441
Total	18.126.442	20.806.398

In 2022, the Company granted meal vouchers in the amount of RON 471,275.

There were no fees paid to administrators and no management services.

Disputes

The company has no pending litigation in which it is a defendant.

Other information

Rent expenses

Rent expenses, recorded in account 612, amounting to 478,330 lei, represent the cost of renting the premises where the Company has its headquarters as well as car rentals.

Audit expenses

In compliance with the provisions of OMFP 1802/2014 in conjunction with the AeRO Stock Exchange regulations, the company has entered into an audit services contract with SC Argus Audit SRL for the audit of the financial statements for the financial year ending 31 December 2022.

The company has prepared annual financial statements which comprise:

- 1. balance sheet (code 10);
- 2. profit and loss account (code 20);
- 3. notes to the annual financial statements
- 4. cash flow statement

They are accompanied by the "Information data" form (code 30) and the "Fixed assets situation" form (code 40)

The contractual costs for the audit activity of the company, according to the Order of the Minister of Public Finance no. 1802/2014, as amended for the financial year ending on 31 December 2022 derive from the audit contract no. AUD 01 / 20.01.2022.

The company has concluded an accounting services contract with Global Accounting Profesional S.A.

Taxation

S.C. CONNECTIONS CONSULT S.A. is from a fiscal point of view a payer of income tax, and in 2022 it obtained a gross profit in the amount of 2.790.037 RON. The calculated income tax is 345,710 RON, and the net profit of the Company is 2,444,326 RON.

The structure of the income and expenses composing the gross profit in the amount of 2.790.037 lei for the year 2022 is the following:

REVENUE - total, of which:	42.381.78		
Operating income	42.164.089		
Financial income	217.692		
EXPENDITURE - total, of which:	39.591.744		
EXECUTIONS TOTAL TOTAL OF WHICH	33.331.744		
Operating expenses	39.363.571		

Income tax expenses = 345.710 RON

Net profit = RON 2,444,327

Romania's tax system is in a phase of consolidation and harmonisation with European legislation. In this respect, there are still different interpretations of tax legislation. In certain situations, the tax authorities may treat certain aspects differently, calculating additional taxes and duties and the related interest and late payment penalties.

According to the tax legislation, interest and late payment penalties are charged on late payment of tax obligations. Law no. 207/2015 on the Tax Procedure Code, which entered into force on 1 January 2016, provides for an interest rate of 0.02% for each day of delay and a late payment penalty rate of 0.01% for each day of delay. These percentages applied throughout fiscal year 2022.

In addition, the Romanian Government has a number of agencies authorized to audit (control) companies operating on Romanian territory. These controls are similar to tax audits in other countries, and may cover not only tax issues but also other legal and regulatory issues of interest to these agencies. In Romania, the tax year remains open for tax audits for 5 years.

The Company's management believes that the tax liabilities included in these financial statements are appropriate.

Environment

Romania is currently in a period of rapid harmonization of environmental legislation with current European Economic Community legislation. As of December 31, 2022, the Company has not recorded any liabilities related to anticipated costs, including legal and consulting fees, studies, design and implementation of environmental remediation plans.

As the Company has no assets or other assets on its balance sheet at the reporting date that expose it to a potential risk or need to comply with certain legal requirements emanating from environmental legislation, the Company does not consider the costs associated with environmental issues to be significant.

Transfer price

Romanian tax legislation has contained rules on transfer pricing between related persons since 2000. The current legislative framework defines the "market value" principle for transactions between affiliated persons, as well as the transfer pricing methods. According to the relevant tax legislation, the tax valuation of a related party transaction is based on the concept of market price for that transaction. Based on this concept, transfer prices must be adjusted to reflect the market prices that would have been established between non-affiliated entities acting independently on the basis of "arm's length conditions". As a result, it is expected that the tax authorities will initiate thorough transfer pricing reviews to ensure that the tax result and/or the customs value of imported goods are not distorted by the effect of related party pricing. It is likely that transfer price verifications will be carried out in the future by the tax authorities in order to determine whether these prices respect the "arm's length" principle and that the tax base of the Romanian taxpayer is not distorted. The company cannot quantify at the reporting date of the financial statements the result of such a verification. The company considers that transactions with related parties were carried out at market values.

CONTINUITY OF ACTIVITY 16

Following the outbreak of the military conflict as of 24 February 2022 between Russia and Ukraine, the Company has taken into account the potential negative effect on its economic performance caused by it. Up to the time of this report, the Company's financial results have not been affected by the crisis caused by the war in Ukraine. Taking into account the changes in the structure of the main contributors to the Turnover in 2023, namely the increase in the share of software implementation revenues at the expense of Service Delivery revenues and the focus on large-scale projects whose main beneficiaries are state institutions, where there are dedicated funds already allocated for contracting IT solution providers, the Company's management believes that there are solid elements confirming an effective initiative in avoiding the occurrence of bottlenecks in economic activity.

In management's opinion, the matters set out in the preceding paragraphs support the view that the Company will have sufficient resources to continue as a going concern for at least 12 months from the reporting date and that it will be

able to effectively manage potential downturns due to the economic crisis caused by external factors. Management agrees that the range of possible outcomes considered in reaching this conclusion does not give rise to significant uncertainties related to events or conditions that could cast significant doubt on the Company's ability to continue as a going concern.
